CAREER OBJECTIVE

Thank you for reviewing my CV. Currently, I am studying web development and aspiring to build a career in this field. I hope to find an opportunity that aligns with my skills and allows for long-term commitment to the company. My career objectives within the company are:

- Within 3 months, I aim to successfully complete the internship period to become an official staff member to contribute to the company
- I anticipate advancing to a higher position within 1 - 2 years, while actively contributing to the organization's success and development

PROJECTS

Shopee Clone (Personal project) 07/2023 - 08/2023

Technologies: REST API, ReactJs, TypeScript, React Hook Form, React Query, ESLint, Prettier, React Helmet

Description: This is a project that clones the user interface of the Shopee e-commerce platform. The website provides a comprehensive shopping experience, from product search to cart management and updating personal information, all integrated with unique features to optimize the user experience.

Functions:

- User authentication management with JWT and automatic application of refresh tokens.
- Form validation with Yup and React Hook Form.
- Synchronized pagination, filtering, and product search on the URL.
- Asynchronous state management with React Query
- Code Splitting
- Optimizing file size for better performance
- SEO with React Helmet

TikTok Clone (Personal project) 09/2023 - 11/2023

Technologies: REST API, ReactJs, React Hook Form, React Query, React Helmet, Eslint, Prettier

Description: The TikTok Clone project focuses on recreating the short-form video entertainment platform. With features such as login management and short video viewing, the project also promotes interaction through likes and comments.

Functions:

- User authentication management with JWT
- Video viewing experience
- Feature to create new videos
- Account management and interactions
- Multi-language support
- Code Spliting
